STUDENT LEARNING OUTCOMES

INSTITUTIONAL STUDENT LEARNING OUTCOMES

Student learning is the core of WNC's mission and the college celebrates this importance with institution-wide learning outcomes. Institutional Student Learning Outcomes guide all courses, programs and degrees offered by WNC.

Students completing degrees at WNC need to demonstrate a combination of intellectual skills, personal and social responsibility, and the ability to integrate knowledge and skills to understand and solve contemporary and enduring problems.

Upon completing a degree at WNC, students must demonstrate:

1. **Working Knowledge** - Identify, describe and apply information, theories, methodologies and approaches from the sciences, social sciences and humanities/arts.
2. **Written Communication** - Write effective projects, papers and reports.
3. **Quantitative Literacy** - Present accurate calculations and symbolic operations, and explain how such calculations and operations are used in either the specific field of study or in interpreting information in other fields.
4. **Information Literacy** - Locate, evaluate, and appropriately use information from multiple resources to complete projects, activities and papers.
5. **Diversity & Society** - Describe diverse historical and/or contemporary positions on selected democratic values or practices.
6. **Critical Thinking** - Integrate knowledge and skills from the study of sciences, mathematics, social sciences and the humanities/arts to think critically about and develop solutions to contemporary and/or enduring problems.
7. **Career Preparation** - Identify, describe and apply information in the discipline or career area of their choice sufficient for further study and/or demonstrate competencies required to succeed in the workplace.

GENERAL EDUCATION STUDENT LEARNING OUTCOMES

General education provides the opportunity to further many of the Institutional Student Learning Outcomes by providing specific objectives that students are expected to demonstrate upon the completion of degrees.

The mission of general education at WNC is to provide students who complete degrees and certificates with critical life skills that will benefit them in their personal and professional endeavors.

1. **Working Knowledge** - Demonstrate working knowledge of key concepts, principles, themes, and major content areas needed to explain and solve discipline-specific problems.
2. **Written Communication** - Present substantially error-free prose suitable in style and content to the purpose of the document and the audience.
3. **Quantitative Literacy** - Present accurate calculations and symbolic operations, and explain how such calculations and operations are used in either the specific field of study or in interpreting information in other fields.
4. **Information Literacy** - Locate, evaluate, and appropriately use information from multiple resources to complete projects, activities, and papers.
5. **Diversity & Society** - Describe diverse historical and/or contemporary positions on selected democratic values or practices.
6. **Critical Thinking** - Use critical thinking and appropriate problem solving methods to address significant or enduring problems.

Many other programs have online courses available.

Online New Student Orientation

New student orientation helps students make a successful transition to the college environment and introduces students to campus resources and services.

All first-time degree and certificate-seeking students should attend orientation.

Canvas

WNC uses a platform called Canvas for access to both online and flex courses. Online Orientation and FAQs for using Canvas can be found online at www.wnc.edu/wnc-online/

www.wnc.edu/online-programs/

Students should work closely with a counselor to help build their online degree path.

**The AS degree requires students to complete a science lab course on campus.*

TRANSFER DEGREES

Every year, large numbers of WNC students successfully transfer to other schools. Students may select a course of study that enables them to complete some or all of the lower division requirements

for a four-year degree at many colleges or universities including the University of Nevada, Reno; University of Nevada, Las Vegas; Nevada State College; and schools in other states.

Associate of Arts • Associate of Business • Associate of Science

JUMP START *your college degree*

The Jump Start program is a dual-enrollment opportunity for students attending Nevada high schools. Students enroll in college courses through Western Nevada College while simultaneously earning high school credits.

WNC's dual-credit Jump Start College program has been recognized as the ACT College and Career Readiness State Exemplar Award recipient.

Associate of General Studies

A DEGREE TO MEET A VARIETY OF NEEDS

This degree provides academic exploration for those seeking personal growth or professional advancement.

The Associate of General Studies degree has increasingly been utilized by students who intend to transfer to four-year colleges and universities. Although it was not designed for transfer, it can be used for this purpose if courses are selected carefully. The majority of the courses chosen should transfer to fulfill core and major requirements. It is recommended that anyone planning to attend the University of Nevada, Reno complete ENG 101 and 102, MATH 120 or a higher level math, and science/social science courses that fulfill UNR's core curriculum requirements.

A maximum of six units of special topics classes in one subject area may apply toward any WNC degree. In some cases, courses may not transfer to other Nevada community colleges and Nevada State College or to other colleges and universities. See a WNC counselor for the latest transfer information. Courses with a number under 100 (such as ENG 95) are not applicable toward an Associate of General Studies degree.

GENERAL ELECTIVES - 36 or 39 units.

Students may choose from any occupational or general education courses to be used as electives for this degree. Some non-traditional credit approved by Admissions and Records may be applicable to satisfy course requirements for occupational degrees, while other such units may be used as electives for the AGS and AAS degrees only. Students planning to transfer to the University of Nevada, Reno should use the UNR core curriculum guide to satisfy general education requirements.

Mission: The purpose of the Associate of General Studies degree is to provide academic knowledge and skills for personal growth, professional advancement and/or successful transfer.

Student Learning Outcomes: Students who complete an Associate of General Studies degree at WNC are expected to demonstrate that they...

- have met the general education student learning outcomes.
- know the subject matter appropriate to their fields of study.

Associate of Applied Science

A CAREER DEGREE

The Associate of Applied Science degree provides career preparation, training and industry credentials in an occupational and/or technical field.

Students enrolled in an applied science program will benefit from "hands-on" laboratory experience within their major field. They will enter the job market with specific skills and knowledge useful for employment and advancement.

Although the AAS degree is not designed to be a transfer program, some courses will transfer to four-year colleges or

universities. Students who wish to transfer to a four-year school should consult a WNC counselor. Courses with a number under 100 (such as ENG 095) are not applicable toward an Associate of Applied Science degree at WNC.

A maximum of six units of special topics classes in one subject area may apply toward any WNC degree.

PROGRAM REQUIREMENTS ELECTIVES

36-39 units

Number of units required may vary by emphasis. Program requirements can be found on the programs of study pages. Some units earned in non-traditional courses may be considered for elective credit and may require review in order to be applied to the AAS degree.

ADVANCED MANUFACTURING

Career and Technical Education Academic Division

The program focuses on the use of innovative technologies and skilled professionals to improve products and processes. Students focus on the integration of high-tech equipment, automation, computer software, and electronic technologies to control industrial systems and machines in manufacturing, distribution and logistics environments. Courses include electrical and fluid power fundamentals, wiring and electronic controls, and robotics, as well as production operations and troubleshooting to provide students with technical theory and hands-on practice to maintain and operate automated systems for a variety of industries.

AUTOMATED SYSTEMS

Associate of Applied Science - Technology Degree

This degree further develops knowledge and skills for the automated environment where the integration of computers and electronic technologies control industrial systems and machines in manufacturing, distribution and logistics environments. The MT1 credential is earned as part of this degree and courses include SolidWorks for 3-D modeling and Alternative Energy, in addition to electronics used in manufacturing, integrated computer tools, wiring and PLC electrical controls. This degree provides students with technical theory and hands-on practice to install, operate and maintain automated systems for a variety of industries.

Salary: \$44,900-\$71,500/year (Nevada)

Associate of Applied Science - Technology – Mission & Outcomes

Mission: The purpose of the Associate of Applied Science degree in Technology is to provide employment-related knowledge and skills necessary to succeed in a chosen field of study.

Student Learning Outcomes: Students who complete programs in occupational areas are expected to demonstrate that they...

- Know the subject matter appropriate to the emphasis of the degree.
- Are able to:
 - communicate effectively and appropriately, in oral and written form.
 - locate, evaluate and properly utilize the tools and resources appropriate to a technology professional.
 - acquire skills and perform tasks necessary for employment or career enhancement.
- Have developed:
 - an appreciation of the importance of social, ethical, legal and diversity issues.
 - an appreciation of the need and importance of lifelong learning.

INDUSTRIAL ELECTRONICS TECHNOLOGY

Certificate of Achievement

Designed to provide fundamental knowledge of and experience with industrial electronic components and systems to learn job skills applicable in a variety of technical environments including automated systems. Students will learn about and use equipment, tools, and processes that involve electrical and electronic equipment to prepare for International Society of Certified Electronics Technicians (ISCET) certification as a Certified Electronics Technician associate, and be prepared to work as a technician in assembly or troubleshooting positions.

GENERAL INDUSTRIAL TECHNOLOGY

Certificate of Achievement

Designed to develop skills and knowledge that can be applied in a variety of industries and facilities with a focus on installation, maintenance and management of technical, electrical and mechanical systems. Hands-on practice and theoretical knowledge will prepare individuals for a variety of entry-level electrical/mechanical technician positions or technical support positions in the industrial, manufacturing, technology or commercial environments. Students will be prepared to earn their Manufacturing Technical level 1 certification, endorsed by the National Association of Manufacturers.

INDUSTRIAL ELECTRONICS TECHNOLOGY

Certification Preparation

This course of study prepares students for the Certified Electronics Technician Associate Exam, which is administered by the International Society of Certified Electronics Technicians (ISCET). Upon completion of the coursework student will have learned basic electronics, math, DC and AC circuits, transistors and troubleshooting.

		Units
ET 131	DC for Electronics	4
ET 132	AC for Electronics	4
AIT 101	Fundamentals of Applied Industrial Technology	4

MANUFACTURING TECHNICIAN

Certification Preparation

The Manufacturing Technician 1 ©(MT1) credential ensures that an individual is prepared for manufacturing positions including fundamental knowledge and skills in electrical, fluid power and control systems. The course of study includes precision measurement, process and machine troubleshooting, problem-solving, machine maintenance concepts, and basic use of diagnostic, visual and statistical tools. Students will prepare for the nationally recognized certification exams covering broad-based knowledge of the multi-step processes needed to successfully analyze, troubleshoot and solve problems beyond the scope of typical machine operators.

AUTOMOTIVE TECHNOLOGY

Career and Technical Education Academic Division

This program offers students an opportunity to acquire the necessary skills and technical theory for a successful career as an automotive mechanic. Individuals who are now employed in the automotive mechanics field will be able to upgrade their knowledge. Students obtaining this associate degree will have completed courses of a very technical nature, chosen to complement each other and provide breadth and depth of diagnostic and repair skill abilities necessary to work in a service facility.

AUTOMOTIVE MECHANICS

Associate of Applied Science - Technology Degree

Salary: \$29,990-\$50,960/year (Nevada)

Career Outlook: Higher than average growth

Associate of Applied Science - Automotive Mechanics - Mission & Outcomes

Mission: The mission of the Associate of Applied Science in Automotive Mechanics is to provide employment-related knowledge and skills necessary to succeed in the automotive field.

Student Learning Outcomes: Students who complete an Associate of Applied Science in Automotive Mechanics are expected to:

- Know the subject matter appropriate to the emphasis of the automotive field.
- Acquire skills and perform tasks necessary for employment or career enhancement.
- Present themselves effectively to a potential employer.
- Utilize appropriate resources to remain current in the automotive field.
- Are able to:
 - communicate effectively and appropriately, in oral and written form.
 - locate, evaluate and properly utilize the tools and resources appropriate to a technology professional.
 - acquire skills and perform tasks necessary for employment or career enhancement.
- Have developed:
 - an appreciation of the importance of social, ethical, legal and diversity issues.
 - an appreciation of the need and importance of lifelong learning.

COMPUTER INFORMATION TECHNOLOGY

Career and Technical Education Academic Division

This program is designed to prepare students to work in many different fields, supporting the technological systems, networks and programming efforts that drive society and the economy. These students may choose a variety of options that will help fill the vital roles in today's connected and collaborative business environment. Courses provide students with readily recognizable credentials that are portable to business, industry and further education.

The core curriculum is based on the recommendations of the Association for Computing Machinery/Special Interest Group Information Technology Education (ACM/ SIGITE). Students may specialize in a specific area (programming, networking or systems administration) or customize their own course selection to meet personal educational and business-related goals.

Associate of Applied Science - Technology - Mission & Outcomes

Mission: The purpose of the Associate of Applied Science Technology Degree in Computer Information is to provide graduates with up-to-date training in the management of information resources, including computer and networking operations, infrastructure and information security.

Student Learning Outcomes: Students who complete the AAS Technology degree in Computer information are expected to be able to:

- Apply knowledge of computing and information technology appropriate to the discipline
- Analyze a problem, and identify and define the technology requirements appropriate to its solution
- Design, implement and evaluate a computer-based system, process, component, or program to meet desired needs
- Function effectively on teams to accomplish a common goal
- Understand professional, ethical, legal, security, and social issues and responsibilities
- Communicate effectively with a range of audiences
- Analyze the local and global impact of computing on individuals, organizations and society
- Recognize the need for, and an ability to engage in, continuing professional development
- Use and apply current technical concepts and practices in the core information technologies
- Effectively integrate IT-based solutions into the user environment
- Understand best practices and standards and their application.

CONSTRUCTION MANAGEMENT

Career and Technical Education Academic Division

WNC's Construction program provides industry-specific training that addresses topics of critical importance to subcontractors, general contractors, superintendents and project managers. Students will study contract administration, coordination, negotiation, quality control and the management of labor resources, equipment and materials.

Bachelor of Applied Science

APPLIED BACCALAUREATE DEGREE IN CONSTRUCTION MANAGEMENT

This degree allows those who have completed an associate degree in construction technology to progress academically and earn a bachelor's degree.

The Bachelor of Applied Science degree in Construction Management offers associate degree students, new students and skilled workers an educational route toward a career as a construction manager or supervisor. The 120-credit program combines knowledge in construction methods, planning and

project management with business and supervisory skills. It also allows those already working in the construction field to enroll in an applicable baccalaureate degree program and expand career advancement possibilities. Students must meet with a counselor and be admitted into the program.

Bachelor of Applied Science in Construction Management Admission Requirements

1. Complete a minimum of 30 college units or equivalent with a minimum 2.0 GPA.
Within the 30 units:
 - a. A minimum of 12 units must be in applicable construction courses. This requirement may be waived if the student has construction experience.
 - b. A minimum of 12 units must be in applicable general education classes, including English 101, with a grade of C or better – a grade of C- or lower will not be acceptable.OR:
Have an associate degree in Construction Management from a regionally accredited institution.
2. Meet with a WNC counselor.
3. Submit application to Admission & Records.

Associate of Applied Science - Business- Management - Mission & Outcomes

Mission: The purpose of the AAS Business - Management degree is to provide the knowledge and skills necessary to be a successful manager.

Student Learning Outcomes: Upon completing an AAS Business - Management degree from Western Nevada College, students will be able to:

1. Articulate and demonstrate their personal employment-related knowledge, skills and abilities.
2. Evaluate the impact of various economic systems and policies.
3. Summarize, record, analyze, interpret and communicate accounting and financial information for decision-making.
4. Devise, implement and evaluate managerial decisions, actions and outcomes.
5. Apply technology to aid in communications and decision-making.
6. Present research, data, analysis and conclusions through written and oral means.
7. Describe the changing landscape of the global market and its impact on the United States.
8. Summarize the impact of social, ethical, legal and diversity issues within contemporary business.
9. Develop business, financial and marketing plans for established and emerging businesses.

NURSING & ALLIED HEALTH

Career and Technical Education Academic Division

Associate of Applied Science - Nursing

WNC's Associate Degree Nursing Program is intended for students seeking a career as a registered nurse. The curriculum is sequenced and progresses in complexity. It integrates knowledge from the bio/psycho/social sciences, literacy, mathematics and humanities and is intended to prepare graduates to pass the national licensure examination (NCLEX-RN) and to function as registered nurses in diverse care settings. Upon completion of the Associate Degree Nursing Program, students will be awarded an Associate of Applied Science degree. Graduates are eligible to sit for the NCLEX-RN.

The nursing program is approved by the Nevada State Board of Nursing exam (NSBN) and is accredited by the Accreditation Commission for Education in Nursing, 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, ph: 404-975-5000. Applicants are advised that eligibility for licensure may be affected by the existence of a criminal record, a history of alcohol or drug abuse, and mental or physical illness that may interfere with the practice of nursing. Applicants are encouraged to directly contact the NSBN at 1-775-687-7700 or 888-590-6726 should there be a concern regarding eligibility for licensure. Applicants may also use the NSBN link found on the WNC Nursing & Allied Health Web page for information regarding how the board processes applicant information and identifies convictions/situations under which the NSBN will deny application for licensure.

A limited number of qualified students are admitted as first semester students utilizing the selection criteria outlined on the next page. The nursing program requires that pre-and co-requisite courses be completed with a grade of "C" or better (a C- or lower grade will not be accepted). Students admitted to the program are required to attend mandatory one-day orientation sessions scheduled for late spring or early summer and prior to the start of classes.

Nursing Admission/Selection Criteria

Admission to the nursing program will be based on special admission procedures and the number of points an applicant receives. Eligible students will be numerically ranked according to total points. In the event of applicants having an equal number of points, lots will be drawn to decide eligibility. Admission will be offered to the applicants on the list with the highest priority points. Applicants not selected will not be carried forward and must reapply for consideration.

Science GPA (BIOL & CHEM pre and corequisite courses)	2.0-2.25 (1)	2.26-2.50 (2)	2.51-2.75 (3)	2.76-3.00 (4)
	3.01-3.25 (5)	3.26-3.50 (6)	3.51-3.75 (7)	3.76-4.00 (8)
GPA (pre- and corequisite courses)	2.0-2.49 (1)	2.5-2.99 (2)	3.0-3.49 (3)	3.5-4.0 (4)
(A grade of C or better is required for all pre and corequisite courses in the nursing program. A C- or lower will not be accepted.)				
Academic Skills Test 0-4 points will be awarded based on test scores.				
Nevada Resident: An applicant who is classified as a Nevada resident for tuition purposes at Western Nevada College at the time of application to the nursing program will be awarded one (1) point in the nursing admissions selection criteria. Maximum Possible Points: 17				

Associate Of Applied Science - Nursing - Mission & Outcomes

Mission: The Nursing Program reflects the mission of Western Nevada College by assisting students to develop professional competencies that value nurturing and a respect for differences, use of evidence-based practice, ethical integrity, a spirit of inquiry and introspection. The development of the competencies prepares students to function as safe, entry-level professional nurses and to transfer to higher degree programs

Student Learning Outcomes:

1. Incorporate principles from the bio/psycho/social sciences, mathematics, literacy and nursing in the provision of patient care.
2. Apply the nursing process in a caring manner to safely meet the holistic needs of patients across the life span.
3. Utilize a broad range of communication skills to promote understanding.
4. Utilize a spirit of inquiry to integrate current evidence-based guidelines and nursing science when making clinical practice decisions.
5. Apply concepts of caring, cultural sensitivity and respect for all persons.
6. Apply concepts of teaching and learning to empower patients and families to effectively manage health care.
7. Incorporate principles of collaboration and teamwork with patients, families and the health care team to achieve patient-centered care.
8. Provide and manage care that reflects values of nursing within professional standards and legal parameters of the profession.

Nursing Program Application Process

Students must apply for admission to Western Nevada College AND the WNC nursing program. Applications for the next fall are available on the WNC Nursing & Allied Health Web page on or after Jan. 2. The last date for submission of an application to Admissions and Records is April 1.

Prerequisites: Students must complete all prerequisite courses with a grade of "C" or better to apply for the nursing program. (C- or lower will not be accepted.) Students may apply for admission to the nursing program while in the process of completing a prerequisite course(s), provided the course is completed by the end of the applicable spring semester or, if taken at another institution, an official transcript showing completion of the course is provided by June 1 of the year of application. Evidence of courses in progress must be submitted by the application deadline.

Corequisites: Students who are accepted into the nursing program must complete all corequisite courses with a grade of "C" or better by the end of the fourth semester of the program. (A grade of C- or lower will not be accepted.) Any corequisite course(s) completed with a "C" or better prior to admission into the nursing program will be calculated into the grade point average under admission selection criteria.

Academic Skills Testing: Students are required to take the Health Education Systems Incorporated Admission Assessment examination as part of the application process. Visit www.wnc.edu/nalh/admissions/ after September for specific information.

Residency: An applicant who is classified as a Nevada resident for tuition purposes at WNC at the time of application to the nursing program will be awarded one point in the nursing admissions/selection criteria.

Application and Supporting Documents: Submit the completed application with supporting documents, which include the academic skills test results and all required college and university transcripts, as appropriate, to Admissions and Records in the time frame delineated on the nursing program application.

NOTE: Statute of Limitation for science courses is five years by the date of application to the nursing program.

NOTE: Current CNA Certification or completion of NURS 129 or NURS 130 required within five years of the date of application to the nursing program.

Other Important Information

- Nursing learning activities are scheduled on and off campus on days, evenings and weekends.
- Course organization requires students to have basic computer skills, including the ability to navigate various online learning programs.
- Clinical experiences take place at long-term health care facilities, acute care hospitals, clinics and day care centers.
- A grade of C (75 percent) or better is required in all nursing courses to continue in the nursing program. A grade of C- or lower will not be accepted.
- Students not admitted to the nursing program must reapply to be considered for admission the following year.
- Nursing students are expected to meet the Nursing Student Essential Abilities as discussed on the nursing Web page.

Nursing Program Readmission Policies

1. At the conclusion of each semester of study, the Nursing Program Faculty Committee discuss students who failed or withdrew from courses during the semester. The faculty acknowledges the responsibility to readmit students, who in their judgment satisfy the requirements of scholarship and professional suitability for nursing. The faculty reserves the right to deny readmission based on a history of unprofessional conduct which violates the ANA Code of Ethics.

2. A student who matriculates into the nursing program may be readmitted one time following a withdrawal/failure. A written request for an exception to the policy for such reasons as medical and military will be considered by Nursing Program faculty. Students who are eligible to be considered for readmission into the nursing program will be admitted using a point system and on a space available basis.

3. Students seeking readmission into the nursing program will be required to demonstrate currency of knowledge and skills by passing competency evaluations for selected nursing theory and laboratory courses previously successfully completed. Students may choose the option to repeat those courses or will be required to repeat those courses if the competency evaluations are not passed. A score of 75% or more is required for each theory competency evaluation and a passing grade is required for selected skill evaluations, including basic nursing assessment skills, in order to be readmitted into the nursing program.

4. A student must submit a letter to the Director of Nursing & Allied Health informing the director that he/she wishes to challenge courses previously successfully completed. The letter must be received within two weeks of receiving the acceptance letter for readmission into the Nursing Program. Upon receipt of the letter, the director will discuss the challenge process with the students and will schedule the challenge evaluations.

5. Students who withdrew from or who failed a course or courses that are related (e.g. NURS 136, 137 & 141) will be required to repeat all courses in the sequence. Students electing to challenge courses previously passed will be required to pass all courses that are related. For example, a student who had passed NURS 136 challenge evaluation but who fails the NURS 137 challenge evaluation will be required to repeat the sequence of courses.

6. Nursing courses taken more than 2 years prior to reapplication will need to be repeated.

7. Students seeking readmission into the nursing program will be required to submit an acceptable background check.

- Documentation and currency of the following is required after acceptance into the nursing program and prior to the start of classes:

- An acceptable physical examination and required immunizations and tests.
- CPR certification (card required) through the American Heart Association (Health Care Provider) or the American Red Cross (Professional Rescuer).
- Major medical health insurance (card required).
- An acceptable background check.

A background check is required by health care organizations. Students will be conditionally accepted into WNC's nursing program until their background check information is approved by the clinical sites. Should clinical sites not approve a student, the conditional acceptance will be withdrawn and the student will not be admitted into the nursing program. Students will be denied entrance into the WNC nursing program if an adverse background check is received from a clinical site.

Drug screening may also be required by clinical sites. Students will be informed of the requirement when necessary.

NURSING

Associate of Applied Science Degree

Salary: \$67,400-\$93,380/year (Nevada)

Career Outlook: High growth, especially in home health care & nursing homes

Good To Know: Hospital nurses tend to earn more than nurses in doctors' offices; may include working days, nights, weekends or holidays

Total Requirements: 71.5 units

Prerequisite Courses*		21 Units
CHEM 121	General Chemistry I	4
or BIOL 190	Introduction to Cell and Molecular Biology

NURS 276	Advanced Medical Surgical Nursing II Theory	3
NURS 277	Advanced Medical Surgical Nursing II Clinical	2.5
NURS 284	Role of the ADN Manager of Care	2

Note: The sequence of some courses in the second year for fall and spring semesters may be altered.

Certified Nursing Assistant - Certification Preparation

The college offers NURS 130 - Nursing Assistant, a six-unit class that prepares students to take the Nevada licensing exam for certification as a nursing assistant.

A Certified Nursing Assistant is an individual who, under the direction of a licensed nurse, typically provides basic nursing care for patients in long-term and acute care facilities. CNAs are educated to assist patients with activities of daily living such as bathing, feeding and dressing, and to help maintain a safe and protective care environment. As they have extensive daily contact with patients, CNAs also play a key role in communicating information/observations to the nurse.

Emergency Medical Services - Certification Preparation

EMS 100 - Healthcare Provider CPR, EMS 113 - First Responder, EMS 108 - EMT Basic, and EMS 115 - Advanced EMT. EMS courses are offered in a sequential series to prepare individuals with the knowledge and skills to assess and care for patients in an emergency or in an out-of-hospital setting. Completion of selected courses is designed to prepare students to take the National Registry Examination for EMT-Basic and the appropriate Nevada EMS certification examination for Advanced EMT.

EMS 108 and EMS 115 are designed to meet the National Standard Curriculum published by the United States Department of Transportation, National Highway Traffic Safety Administration.

A background check may be required by some clinical sites prior to the start of clinical experiences. Information about how to meet this requirement will be explained by the course instructor. Drug screening may be required by health care organizations. See the Nursing & Allied Health website for the process and procedures to follow.

Laboratory Technician-Phlebotomy - Certification Preparation

Phlebotomy classes (LTE 101 and LTE 102) are listed in the class schedule under the Laboratory Technician heading. These courses provide students with knowledge and skills necessary to perform the collection, identification and preservation of specimens as applied to venipuncture techniques.

Phlebotomists are trained to collect blood specimens by safely performing skin puncture or venipuncture procedures on patients of all ages. They are required to adhere to strict policies and safety precautions designed to provide patient protection and comfort, and to assure safe handling of specimens throughout the collection process.

NOTE: These courses have mandatory admission requirements. See the Nursing & Allied Health Web pages for required immunizations, tests, major medical insurance and CPR certification. This information must be provided to the Nursing & Allied Health Office before permission to enroll in the course is granted. Information regarding how to submit information required to qualify for enrollment into these courses is available on the Nursing & Allied Health web pages. Students are eligible to register after all required information is received by the Nursing & Allied Health Office.

Take 15 credits each semester to graduate on time, save money and start your career sooner.

Taking 12 credits each semester may qualify you as a full-time student for financial aid, but that course load will not allow you to finish your degree in two or four years.
